## Multi-Directional Compression Design Supports Your Joints Copper-Infused Sleeve "Tommy Copper" On Sale Now

Oak Lawn Marketing, Inc. (hereinafter referred to as "OLM") which operates the Shop Japan shopping brand is pleased to announce that it has started full-fledged sales of Tommy Copper on October 30, 2013. Tommy Copper is a compression garment that wholly supports joints with its multi-directional compression design.

### About product

OLM is now offering the compression sleeve, Tommy Copper, for those people who want to live their lives free from discomfort on their elbows and/or knees when they go up and down stairs, do housework, take care of children or play sports.

Tommy Copper is a big hit product in the U.S. and has sold over 600 thousand pieces\*1.

\*1 Total number of shipments from January 1 to December 31, 2012

### Power of copper and high functionality of the product

The product contains copper just as the name suggests, and the power of copper can help you solve problems and support you in everyday life, even while playing sports.

Since it is made from fabric that is only 0.5 millimeters thick, it is easy to forget that you are actually wearing the support. It is suitable for everyday use because of its stylish design that allows you to wear it on any occasion. It is also machine-washable so you can keep it clean all the time.

**Multi-directional compression design**

Tommie Copper comes in three sizes. It is designed to wrap the entire joint and provide good pressure on the area in contact with skin from multiple directions. The thin fabric stretches freely in four ways, so it smoothly supports your elbows, kness and ankles even while you actively move your body.
