■ Features of the new products

OLM will begin selling two new products, the washable “True Sleeper cero” and the “True Sleeper Neofeel” that absorbs and desorbs sweat. Both products were developed to solve problems related to sweating during sleep, such as damp bedding and stains during hot summer nights.

The products are laid over the bed or futon, saving users the trouble of replacing bedding and ensuring a good night’s sleep.

The new additions will bring the total number of products in the “True Sleeper” series to 5 (including the low-resistance mattresses, “True Sleeper Premium” and “True Sleeper Excellent”, and low-resistance futon, “True Sleeper Comfort”.

<Product Overview>

■ True Sleeper cero: Washable double-layered mattress

1. Original double-sided mattress with two different layers: reticular material “NANOBRID™” and hard cotton material “Fiber cushion”. You can choose to sleep on either of the sides depending on the season: well-ventilated “NANOBRID™” in summer and warm “Fiber cushion” in winter.
2. Both “NANOBRID™” and “Fiber cushion” are washable which means that sweat and dust, which lead to dust mite infestations, can easily be washed away even in the summer.
3. The special inner cover also has two different sides, with one side made of mesh. The inside is separated into 6 compartments, making it easier to take off and put on the cover.

■ True Sleeper Neofeel: Breathing mattress

1. The mattress is made of material which absorbs sweat and desorbs it over time. It reduces the hot and sweaty feeling, ensuring you a cool and pleasant night of sleep.
2. The mattress combines the fit of a low-resistance mattress and the elasticity of a high-resistance mattress to create a completely new sensation for the user.
3. The soft texture feels like touching a baby's cheeks.
